29 - Multiple Choice	66%	C	34%	22%	A	1	994 / 1498	0.68	0.57
30 - Multiple Choice	53%	B	47%	23%	A	1	791 / 1498	0.57	0.50
31 - Multiple Choice	73%	A	27%	11%	B	1	1091 / 1498	0.78	0.49
32 - Multiple Choice	77%	A	23%	9%	B	1	1154 / 1498	0.81	0.52
33 - Multiple Choice	73%	C	27%	11%	D	1	1091 / 1498	0.78	0.59
34 - Multiple Choice	81%	A	19%	9%	B	1	1214 / 1498	0.84	0.37
Summary	79%		21%				1182 / 1498		

P-value represents an item's difficulty as evaluated by dividing the total number of correct responses by the total number of students tested. P-value is calculated for true/false, multiple choice, gridded or hot spot-single response items.

Item Mean is the average score for student responses to an open response question or to a multi-part question. Item Mean is calculated for inline response, matching or hot spot-multiple selections items.

NORTH CAROLINA DEPARTMENT OF PUBLIC INSTRUCTION Reformatted Reports

Discrimination or Item Total Score Correlation is the correlation between the question score and the overall test score and indicates the extent to which success on an item corresponds to success on the test.

Standards Alignment to Common Core State Standards

Question	ID	Standard Description
1 - Multiple Choice	CCSS.Math.Content.2.NBT.A.1	Understand that the three digits of a three-digit number represent amounts of hundreds, tens, and ones; e.g., 706 equals 7 hundreds, 0 tens, and 6 ones. Understand the following as special cases:
2 - Multiple Choice	CCSS.Math.Content.2.NBT.A.2	Count within 1000; skip-count by 5s, 10s, and 100s.
3 - Multiple Choice	CCSS.Math.Content.2.NBT.B.5	Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition and subtraction.
4 - Multiple Choice	CCSS.Math.Content.2.OA.B.2	Fluently add and subtract within 20 using mental strategies. By end of Grade 2, know from memory all sums of two one-digit numbers. See standard 1.OA.6 for a list of mental strategies.
5 - Multiple Choice	CCSS.Math.Content.2.OA.C.3	Determine whether a group of objects (up to 20) has an odd or even number of members, e.g., by pairing objects or counting them by 2s; write an equation to express an even number as a sum of two equal addends.
6 - Multiple Choice	CCSS.Math.Content.2.MD.C.7	Tell and write time from analog and digital clocks to the nearest five minutes, using a.m. and p.m.
7 - Multiple Choice	CCSS.Math.Content.2.MD.A.1	Measure the length of an object by selecting and using appropriate tools such as rulers, yardsticks, meter sticks, and measuring tapes.
8 - Multiple Choice	CCSS.Math.Content.2.G.A.1	Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces. Identify triangles, quadrilaterals, pentagons, hexagons, and cubes. Sizes are compared directly or visually, not compared by measuring.
9 - Multiple Choice	CCSS.Math.Content.2.NBT.A.3	Read and write numbers to 1000 using base-ten numerals, number names, and expanded form.
10 - Multiple Choice	CCSS.Math.Content.2.NBT.A.4	Compare two three-digit numbers based on meanings of the hundreds, tens, and ones digits, using $>$, $=$, and $<$ symbols to record the results of comparisons.
11 - Multiple Choice	CCSS.Math.Content.2.NBT.B.5	Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition and subtraction.
12 - Multiple Choice	CCSS.Math.Content.2.OA.A.1	Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.
13 - Multiple Choice	CCSS.Math.Content.2.OA.C.4	Use addition to find the total number of objects arranged in rectangular arrays with up to 5 rows and up to 5 columns; write an equation to express the total as a sum of equal addends.
14 - Multiple Choice	CCSS.Math.Content.2.G.A.2	Partition a rectangle into rows and columns of same-size squares and count to find the total number of them.
15 - Multiple Choice	CCSS.Math.Content.2.NBT.B.6	Add up to four two-digit numbers using strategies based on place value and properties of operations.
16 - Multiple Choice	CCSS.Math.Content.2.NBT.B.7	Add and subtract within 1000, using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method. Understand that in adding or subtracting three-digit numbers, one adds or subtracts hundreds and hundreds, tens and tens, ones and ones; and sometimes it is necessary to compose or decompose tens or hundreds.

-
- 17 - Multiple Choice CCSS.Math.Content.2.MD.A.2** Measure the length of an object twice, using length units of different lengths for the two measurements; describe how the two measurements relate to the size of the unit chosen.
-
- 18 - Multiple Choice CCSS.Math.Content.2.MD.A.3** Estimate lengths using units of inches, feet, centimeters, and meters.
-
- 19 - Multiple Choice CCSS.Math.Content.2.MD.C.8** Solve word problems involving dollar bills, quarters, dimes, nickels, and pennies, using \$ and ¢ symbols appropriately. Example: If you have 2 dimes and 3 pennies, how many cents do you have?
-
- 20 - Multiple Choice CCSS.Math.Content.2.NBT.A.4** Compare two three-digit numbers based on meanings of the hundreds, tens, and ones digits, using $>$, $=$, and $<$ symbols to record the results of comparisons.
-
- 21 - Multiple Choice CCSS.Math.Content.2.G.A.3** Partition circles and rectangles into two, three, or four equal shares, describe the shares using the words halves, thirds, half of, a third of, etc., and describe the whole as two halves, three thirds, four fourths. Recognize that equal shares of identical wholes need not have the same shape.
-
- 22 - Multiple Choice CCSS.Math.Content.2.MD.B.6** Represent whole numbers as lengths from 0 on a number line diagram with equally spaced points corresponding to the numbers 0, 1, 2, ..., and represent whole-number sums and differences within 100 on a number line diagram.
-
- 23 - Multiple Choice CCSS.Math.Content.2.MD.A.1** Measure the length of an object by selecting and using appropriate tools such as rulers, yardsticks, meter sticks, and measuring tapes.
-
- 24 - Multiple Choice CCSS.Math.Content.2.OA.A.1** Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.
-
- 25 - Multiple Choice CCSS.Math.Content.2.MD.A.1** Measure the length of an object by selecting and using appropriate tools such as rulers, yardsticks, meter sticks, and measuring tapes.
-
- 26 - Multiple Choice CCSS.Math.Content.2.G.A.2** Partition a rectangle into rows and columns of same-size squares and count to find the total number of them.
-
- 27 - Multiple Choice CCSS.Math.Content.2.G.A.1** Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces. Identify triangles, quadrilaterals, pentagons, hexagons, and cubes. Sizes are compared directly or visually, not compared by measuring.
-
- 28 - Multiple Choice CCSS.Math.Content.2.G.A.1** Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces. Identify triangles, quadrilaterals, pentagons, hexagons, and cubes. Sizes are compared directly or visually, not compared by measuring.
-
- 29 - Multiple Choice CCSS.Math.Content.2.NBT.B.7** Add and subtract within 1000, using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method. Understand that in adding or subtracting three-digit numbers, one adds or subtracts hundreds and hundreds, tens and tens, ones and ones; and sometimes it is necessary to compose or decompose tens or hundreds.
-
- 30 - Multiple Choice CCSS.Math.Content.2.OA.A.1** Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.
-
- 31 - Multiple Choice CCSS.Math.Content.2.OA.A.1** Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.
-
- 32 - Multiple Choice CCSS.Math.Content.2.MD.C.8** Solve word problems involving dollar bills, quarters, dimes, nickels, and pennies, using \$ and ¢ symbols appropriately. Example: If you have 2 dimes and 3 pennies, how many cents do you have?
-

33 - Multiple Choice CCSS.Math.Content.2.MD.C.8 Solve word problems involving dollar bills, quarters, dimes, nickels, and pennies, using \$ and ¢ symbols appropriately. Example: If you have 2 dimes and 3 pennies, how many cents do you have?

34 - Multiple Choice CCSS.Math.Content.2.MD.C.7 Tell and write time from analog and digital clocks to the nearest five minutes, using a.m. and p.m.
